

The following

Agreement

has been concluded

between

**WINTERSPORT TIROL AG & CO, STUBAIER BERGBAHNEN KG,
Mutterberg 2, 6167 Neustift**

(name of the cableway / lift company, the party with a legal duty to maintain safety / **the party authorised to dispose of the skiing area**)

and

(name of the racing promoter, the association, the consortium, the company, the ski school, the private organiser - hereinafter referred to as **Organiser**):

(person to contact, e-mail address, mobile number)

(country indicator, address of the **Organiser**)

1) This agreement is only valid for the time period defined below:

1st of October 2010 until 31st of December 2010

After reservation in advance (information office Eisgrat) the organiser is permitted to stage a sports competition in the form of a timed run or a training run (hereinafter referred to in short as the 'Event') in the time period defined above.

2) The organiser expects about _____ active and about _____ passive participants to attend the Event.

3) The party authorised to dispose of the skiing area shall provide the organiser with the piste / piste sections / course indicated below for the purpose of staging the above event for the duration of the same. If all indicated pistes are already occupied it is not possible to receive a piste section. Only the information office Eisgrat is entitled to administrate and assign the piste sections.

The party authorised to dispose of the skiing area where the event is expected to take place at the same time informs the organiser that the staging of winter sports / ski sport events is not covered in principle by the allocation of the area for public winter sports / public skiing and that winter sports events may consequently only be held on pistes or piste sections which are not being used at the same time for public winter sports / public skiing.

Spatial boundaries of the area provided for said event (race / training session(s)) shall be established *in situ* by the representative responsible for the cableway / lift company (managing director, director of operations, piste manager, etc.).

The party authorised to dispose of the skiing area (cableway / lift company) shall call the attention of public winter sports / public skiing participants to the exclusion zone in the relevant part of the piste.

4) The organiser of the timed run or training run is solely responsible for management, organisation and safety issues during the event and throughout the event venue. In particular, the organiser shall enter into the following obligations:

4.1. All parts of the event shall be limited exclusively to the pistes or piste sections allocated above for the period of time indicated above.

4.2. The organiser is responsible for adequately safeguarding the racecourse / training course with regard to spectators, bystanders and any other winter sports practitioners or skiers.

4.3. The event venue must in any case be safeguarded in such a way that non-participants of the event are not exposed to hazards of any kind whatsoever resulting from the staging of the event.

4.4. The event venue including the spectators' area must be clearly separated from the sections of the piste used for public skiing and marked in such a way that the spatial boundaries of or area provided for the event venue are clearly apparent for active or passive event participants as well as for piste users who are not participating in the event.

4.5. The organiser shall take all the usual safety precautions for events such as the one planned above which are adequate and necessary to ensure the physical safety of all active and passive participants as well as of non-participating third parties.

4.6. At the end of the race / training event the organiser shall dismantle all slalom poles, barriers and any other such obstacles (e.g. poles that have broken off, timing cables, etc.) so that the piste / course can once again be safely used by winter sports practitioners / piste users.

4.7. The trainer and/or head trainer is responsible for his/her section of the piste during the training session. Stubai Gletscherbahn shall not be held liable for any damage.

5) By signing this document the organiser confirms that:

5.1. He has the competence and expertise required to meet the obligations indicated above;

5.2. He will meet the obligations indicated above;

5.3. He releases party authorised to dispose of the skiing area (cableway / lift company) from any claims whatsoever made against the latter due to the staging of the event indicated above.

5.4. To have received the information sheet from the Stubai Gletscherbahn for coaches, and to have read and accepted and signed.

6) A separate compensation agreement shall be drawn up in the event that the party authorised to dispose of the skiing area (cableway / lift company) incurs any expenses (e.g. as a result of providing materials, grooming work and passenger transportation, etc.).

7) The organiser expressly declares that he is in possession of all required permits and authorisations to stage the event.
