ADVENTURE GLACIER.

There is plenty to explore in the Kingdom of Snow all year round. Pure fascination for the young and old. The **TOP OF TYROL summit platform** at an altitude of 3,210 metres offers a breath-taking 360°-panoramic view. The six-metres-high **wooden mammoth** is a perfect for the kids to romp about.

Hikers and mountaineers appreciate the Stubai Glacier as starting point for both, **tours** at intermediate altitude levels and glacier tours.
